CSC 110: Week 3, Lecture 1

Dr. Bodine

Last week…

- Numeric types
  - Ints, floats
  - Arithmetic

- Math library

- Accumulator loops

This week…

- Chapter 5: Sequences: strings, lists, and files

String data type

- Store textual information
  - Sequence of characters
- String literal
  - Example: "Hello, World!" of 'Hello, World!'
- String variables
  - Store the text so we can recall it later

Let's do a little activity...

- Describe the difference between the following three lines:
  - Hello, World!
  - "Hello, World!"
  - 'Hello, World!'
